Мешковина  
кармана

The diagram shows a series of parallel lines representing the mesh of a pocket. The lines are arranged in a rectangular shape with rounded corners. On the left side, there are several horizontal lines extending from the mesh lines, likely representing the pocket's opening or reinforcement. A long vertical arrow points downwards from the right side of the mesh area. The entire drawing is enclosed in a rectangular frame with thick corner brackets.

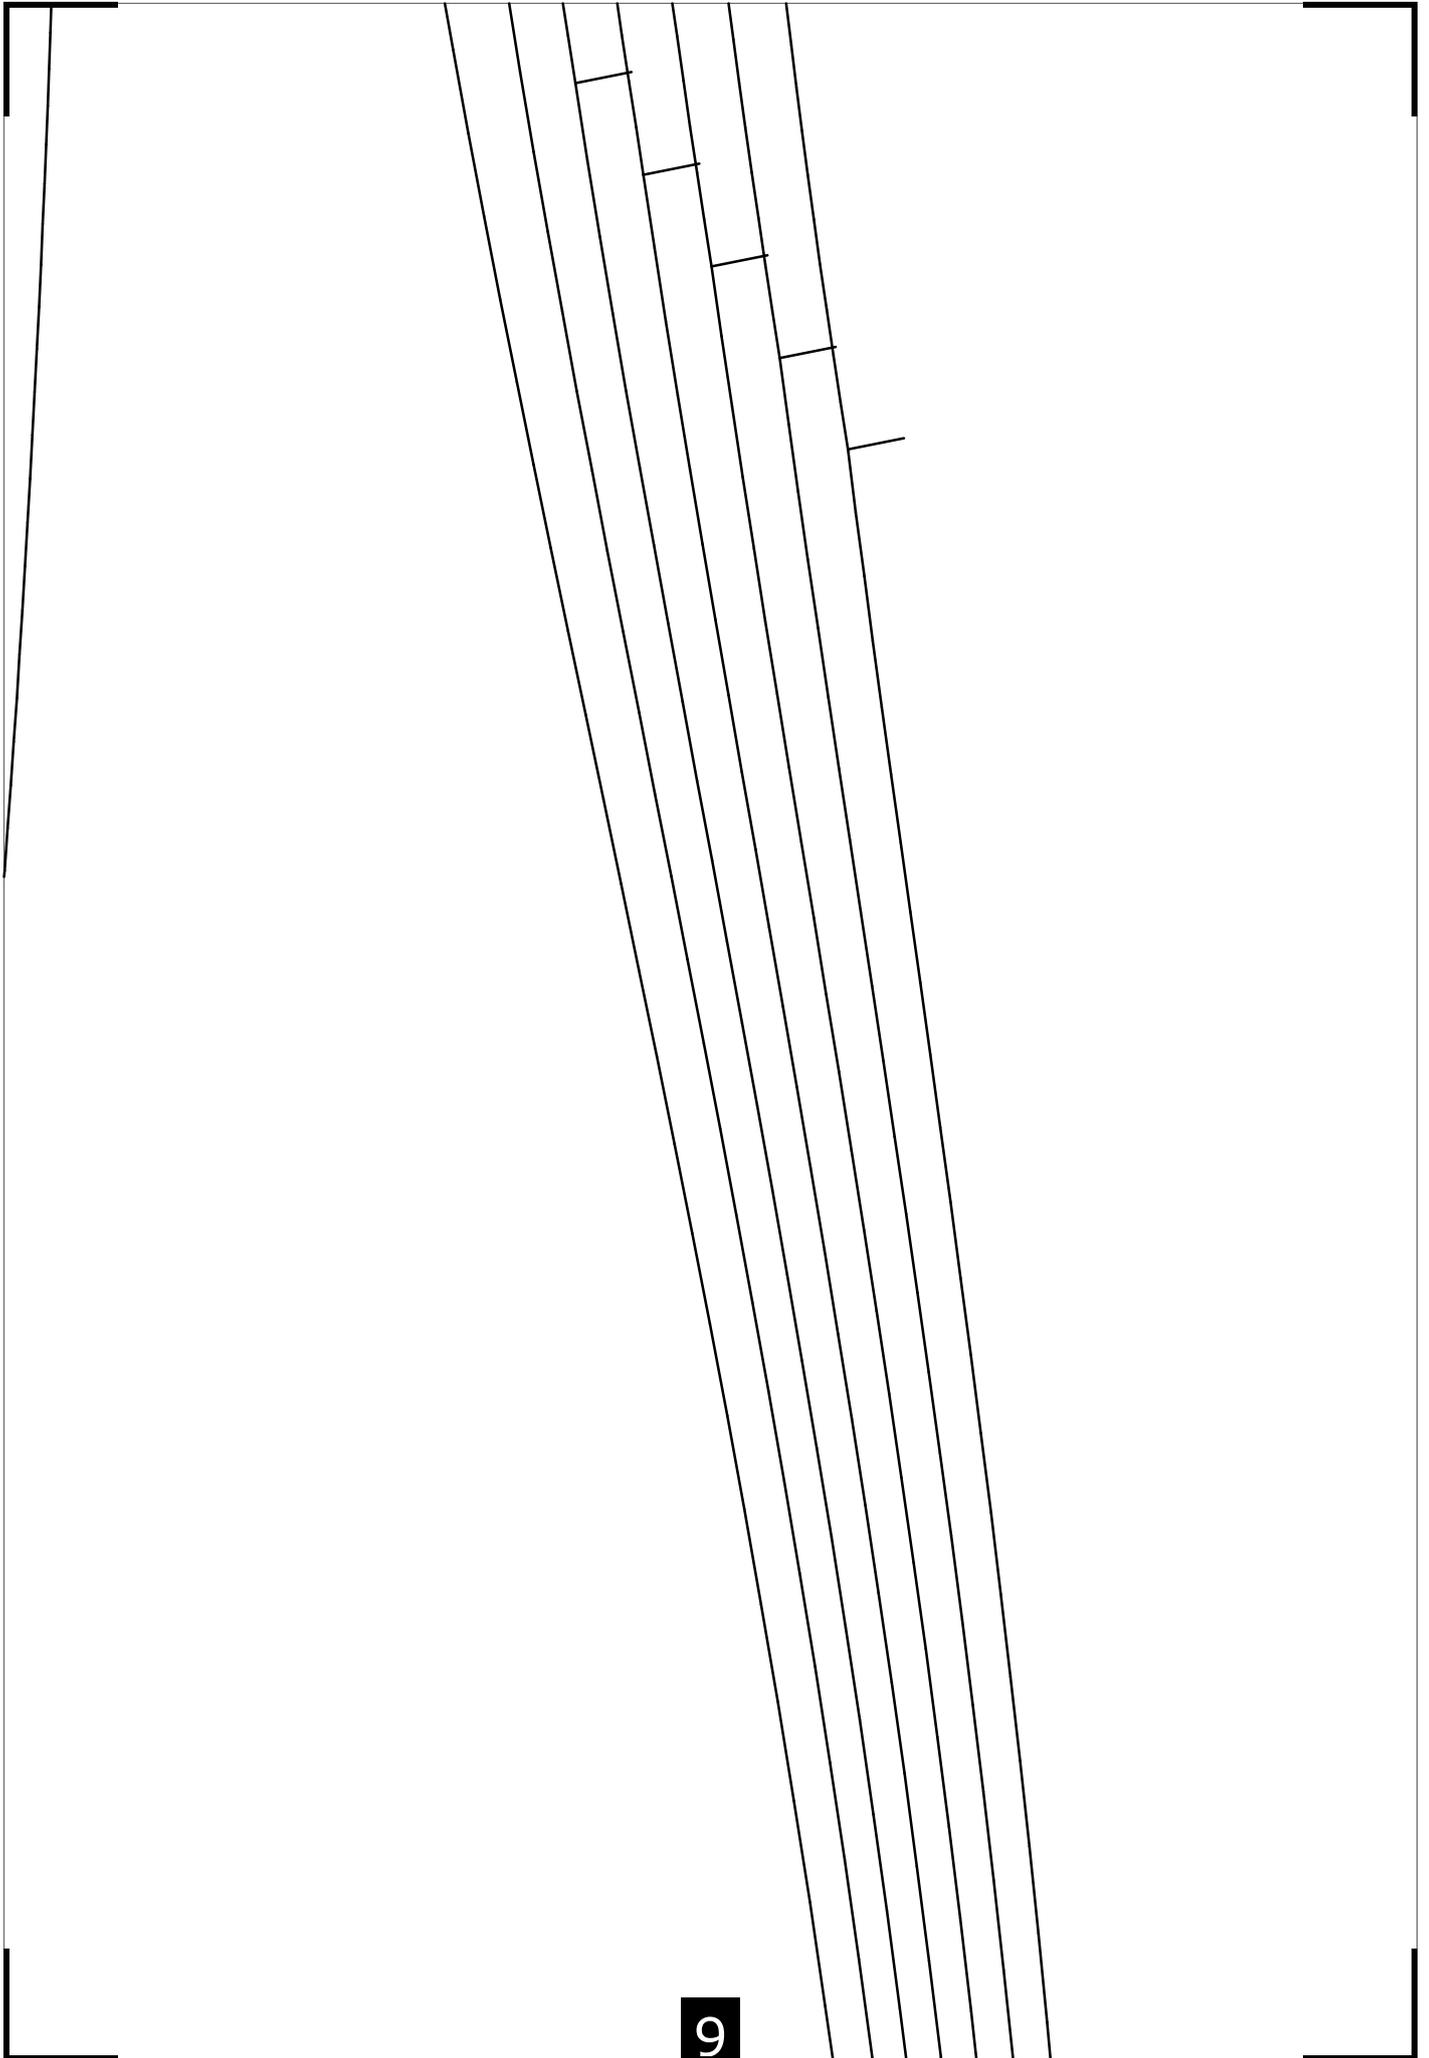

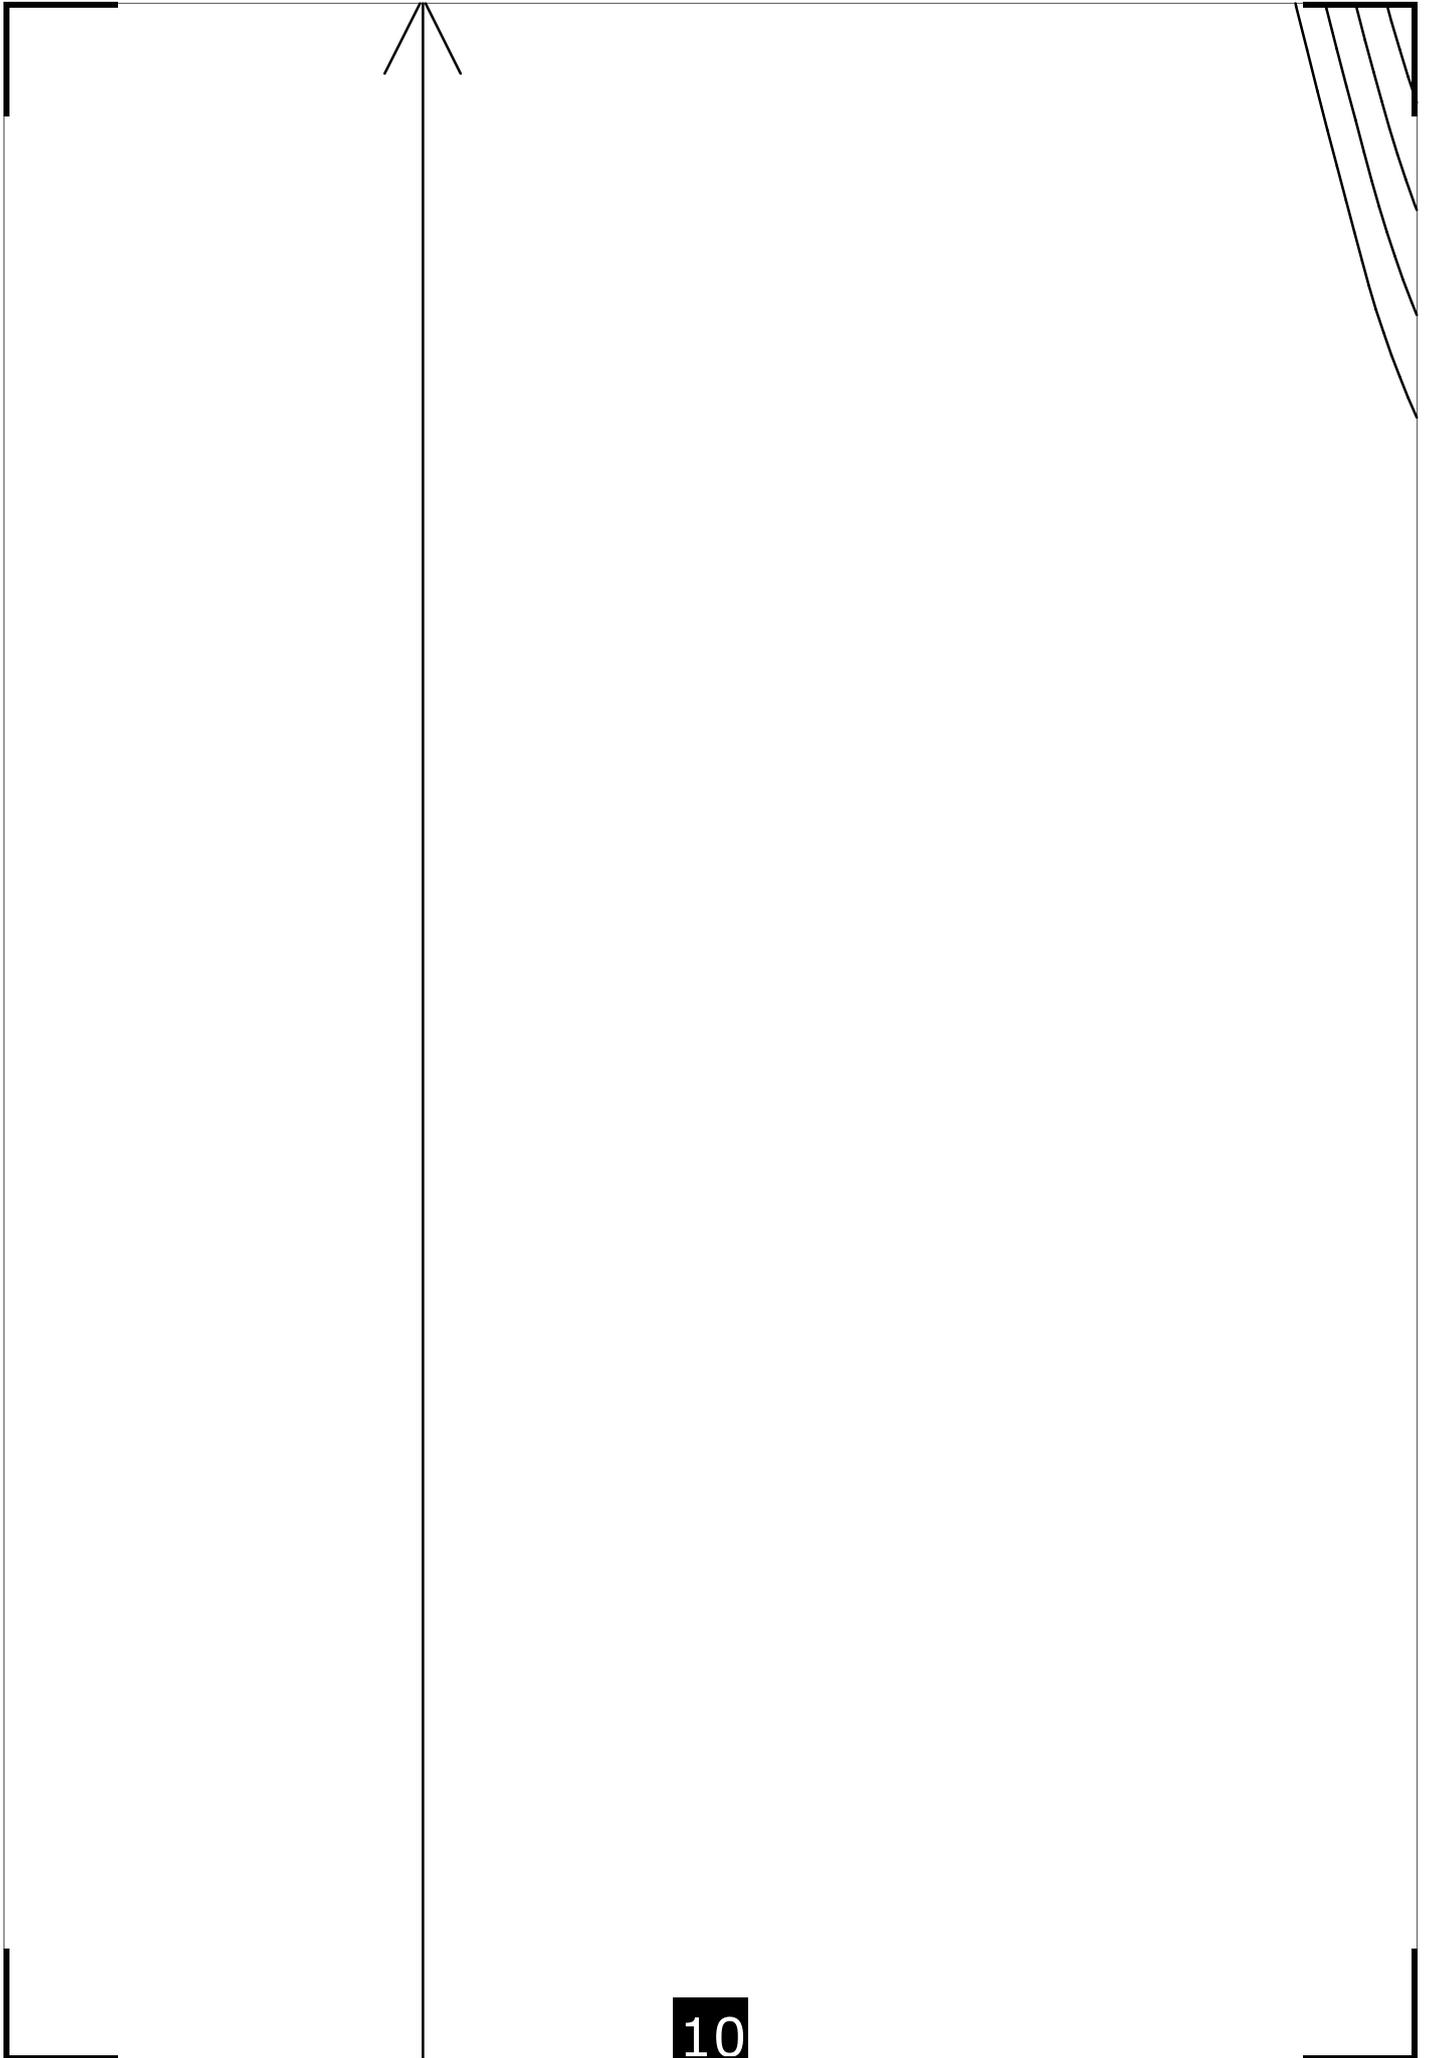

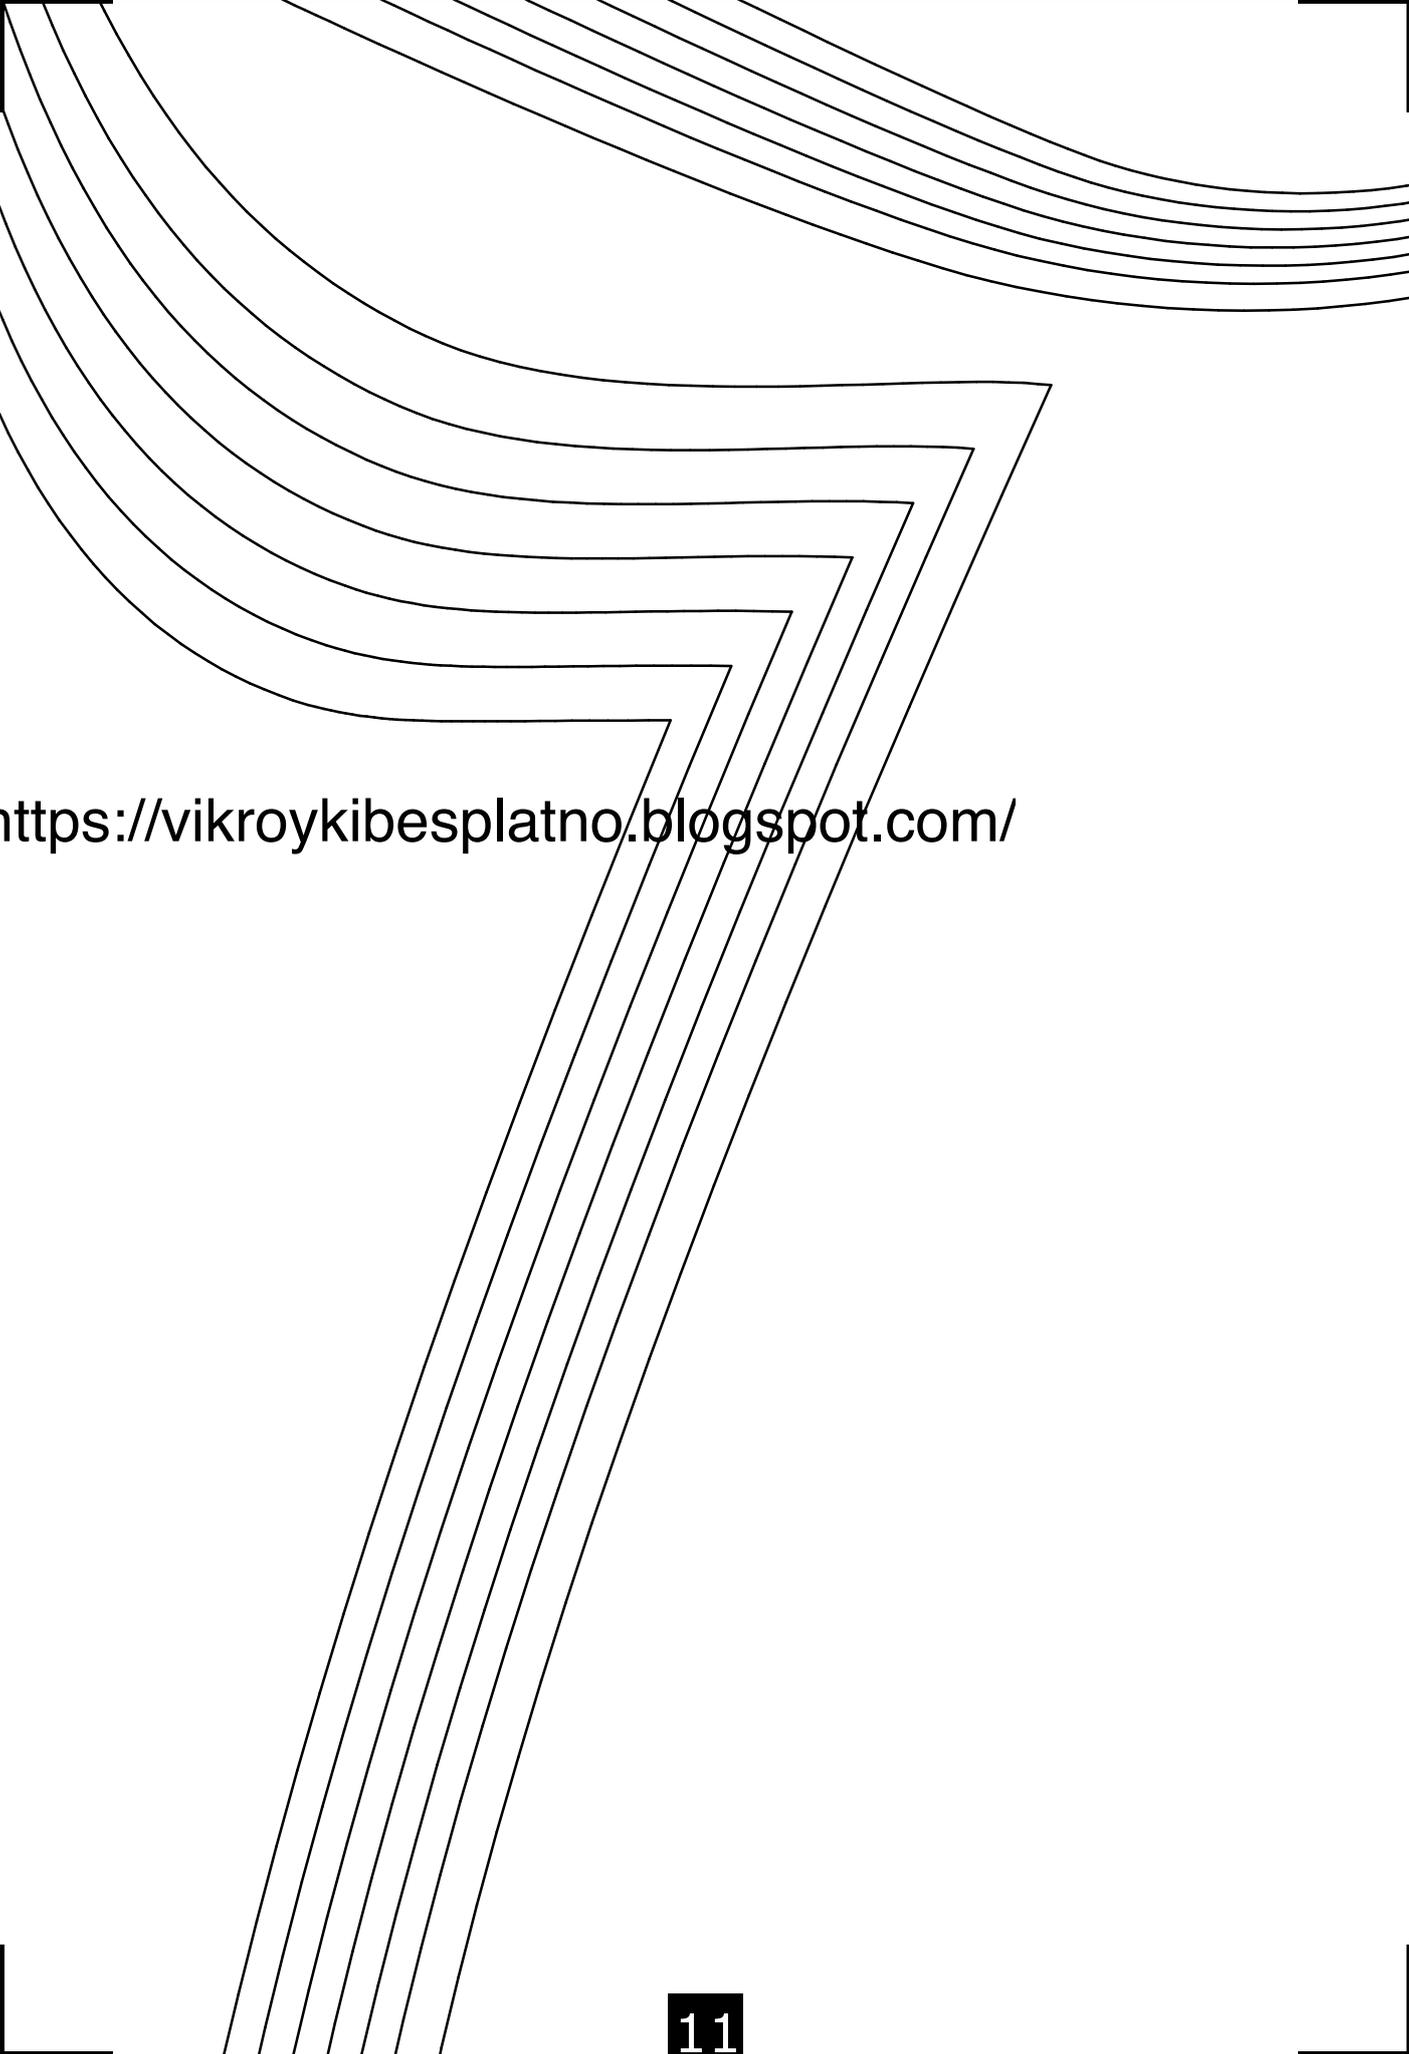

Передняя половинка

The image shows a technical drawing of the front half of a shoe pattern. It consists of several curved lines representing the upper part of the shoe, including the toe cap and the side panels. The lines are drawn in black on a white background. The pattern is positioned in the upper left quadrant of the page. There are two small crosshair marks on the top edge of the pattern, likely indicating a specific point or measurement. The entire drawing is enclosed within a thin black border.

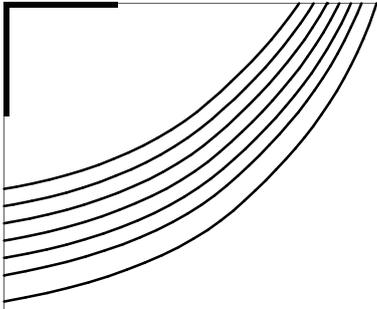

The image features a large, abstract graphic design composed of multiple parallel lines. These lines form a stylized, elongated shape that resembles the number '7'. The lines are arranged in a way that they curve and then meet at sharp angles, creating a sense of depth and movement. The design is set against a plain white background.
