may be reproduced or resold without express permission.

## Printing

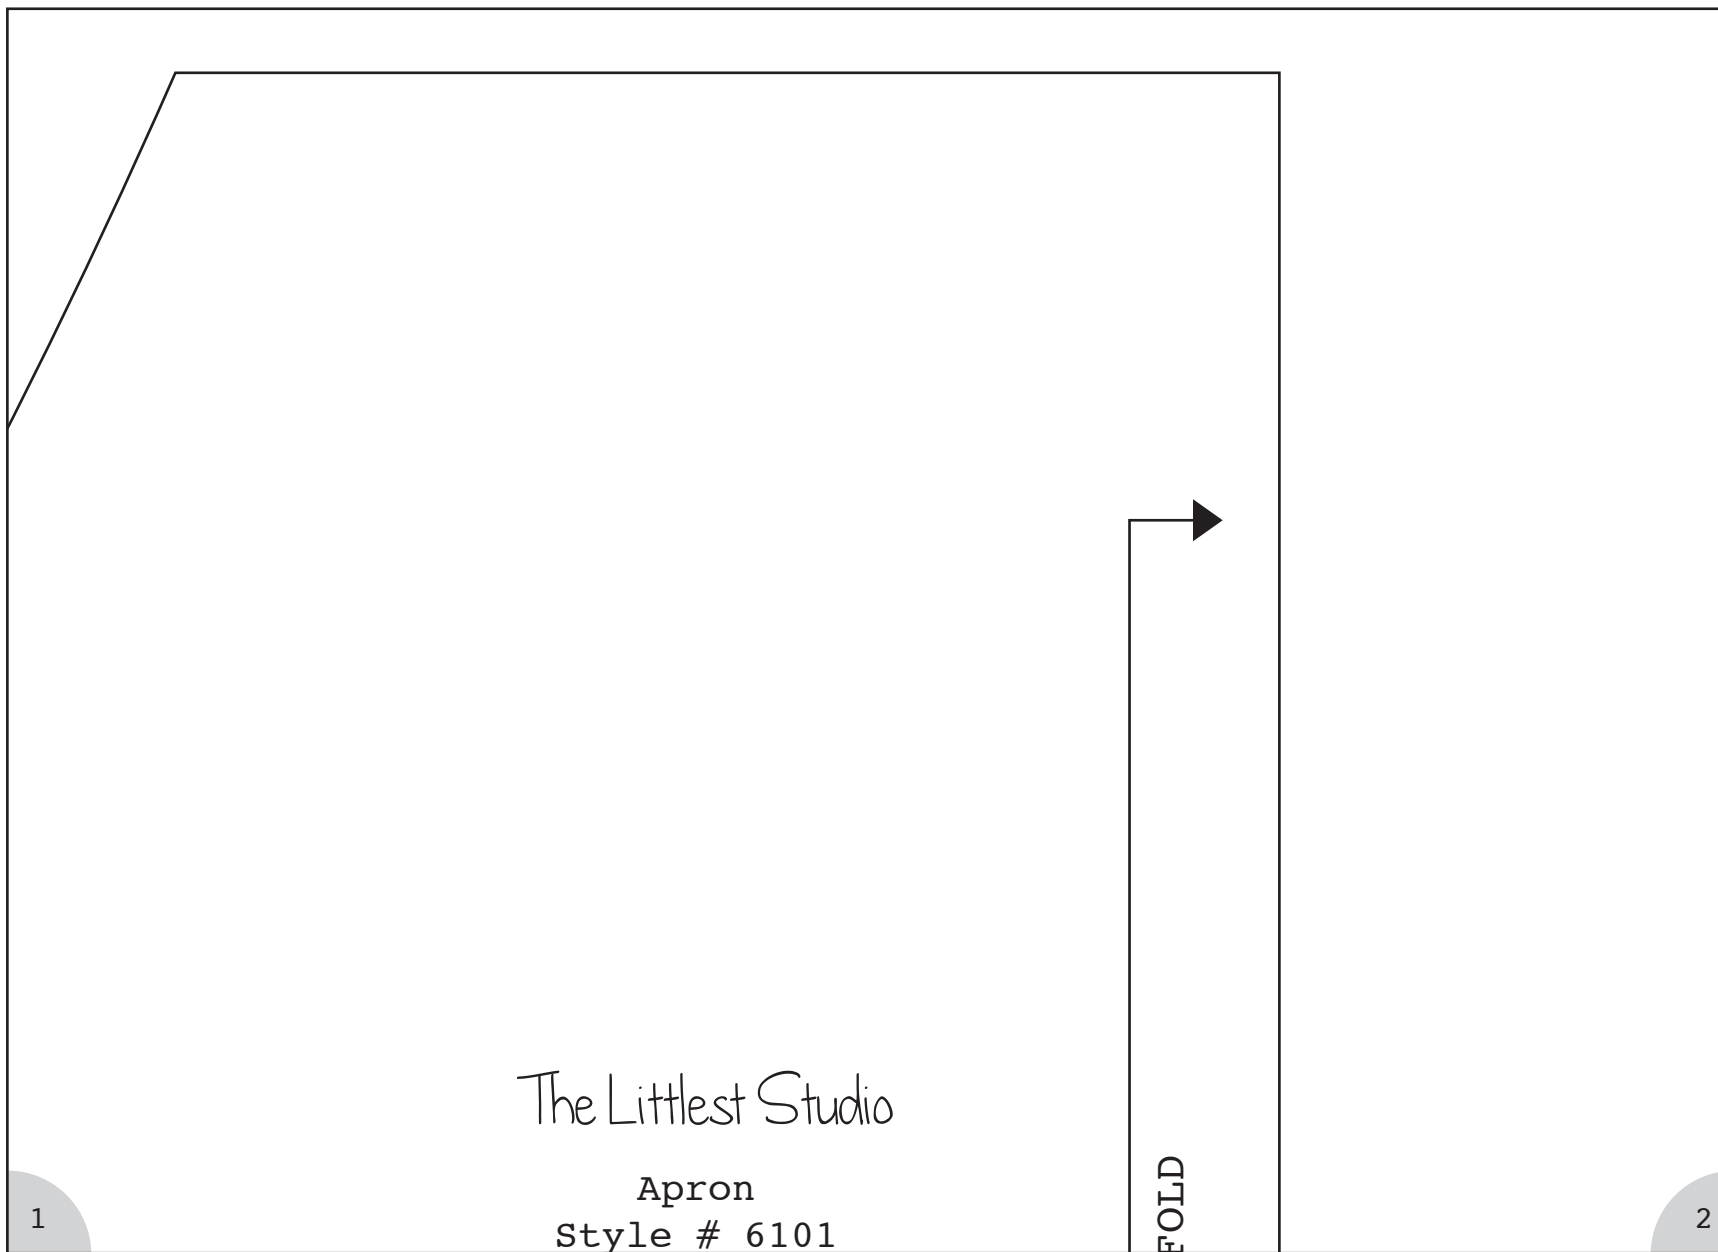

When printing your pattern, make sure that your printer is set to print the “actual size” rather than have it “fit to page”. This will ensure correct sizing. Print off the first page of the pattern and measure the 2”x2” square to double check your printing.

## Assembly

After printing all your pattern pieces, match up the numbered circles to assemble your pattern. You will have to trim the paper to the border on some sides to properly tape your pieces into place.

2" x 2"
