Bijoux Baby Jewelry Roll

Every girl needs a super-cute and totally essential jewelry roll to stash her favorite *bijoux* in... try this beauty, designed for medium-weight fabrics like brocade, duchesse satin, even denim and of course, perfect for home-dec and quilting cottons. Rectangular padded jewelry roll is finished with self or contrast binding, and has two interior zippered pockets, a padded ring cylinder, and folds up to close with self or contrast ties.

Use this useful accessory to protect your jewelry goodies.. in your office desk, for traveling, or for going to the gym..and of course, this will make a perfect gift for your favorite fashionista!

SEAM ALLOWANCES & OTHER INFO

Seam allowances for the zippers and ring cylinder are 3/4" or 2cm wide; all other edges are without seam allowances, but finished with a bound edge. All seams are sewn right sides together, unless otherwise stated.

Skills needed include: inserting a centered zipper; binding edges with bias binding; working with batting; making ties from bias binding; working a buttonhole & applying a button.

ABOUT THIS STYLE

This jewelry roll has a simple flat shape and construction, with zippers to seal the interior pockets and binding ties for closure.

Now OF COURSE you're not going to make & fit a muslin for this...instead, just pin together the pieces so you can see how the jewelry roll goes together.

FABRIC & NOTIONS REQUIRED

You' need around 12"/30 cm of 60"/150cm wide fabric; you'll need the same amount of lining & interfacing.

To complete the jewelry roll you'll also need 1x 3/8" or 1cm diamter button; 2 x 8"/20cm long zippers; a scrap of thin batting about 20"/50cm long by 9"/23cm; plus about 2 1/4 yards or 2.05m self or contrast bias binding ...if you want to make your own bias binding, you'll need another 12"/30cm of 60"/150cm wide fabric.

SUGGESTED CUTTING LAYOUT FOR THE ROLL

lay the fabric open for this layout...

lay the lining out the same way.

1 Start by applying your interfacing to the inner pocket pieces, as well as the outer piece.

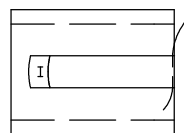

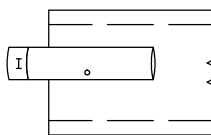

2 Prepare the ring cylinder: join the long edges of the cylinder strip, and press open....

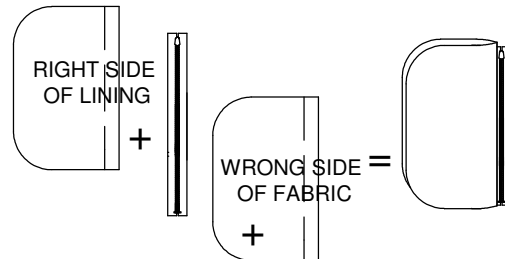

...then flatten the strip, making sure the seam allowances are centered, and close off one of the short ends...

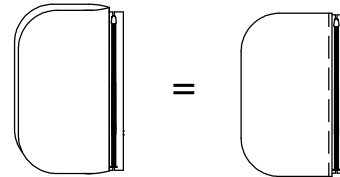

...turn the cylinder out, and stitch across the short closed end, about 1" down. Work a buttonhole across this flat section, then stuff the cylinder with batting, and baste this to the inner center section.

3 Insert the inner pocket zippers: sandwich the pocket fabric, zipper and pocket lining together like this, then sew along one side of the zipper tape.

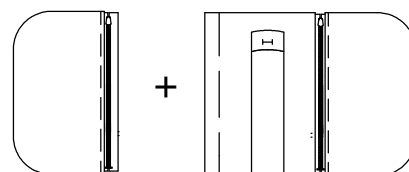

Press the fabric & lining back, then topstitch along the zipper edge, so it looks like this...

4 Join the remaining edges of the zippers to the inner center piece, and press the seam allowances towards the center.

DO NOT topstitch along these edges of ther zippers yet!

ring cylinder

cut 1 in fabric

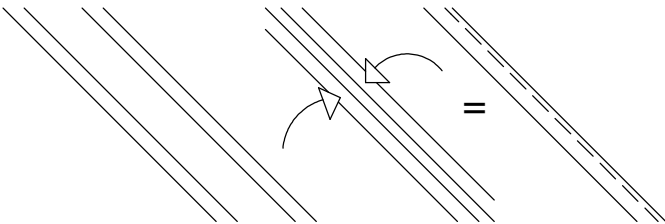

- 5** Baste the inside pocket assembly to the lining; to complete the pockets, topstitch through all thicknesses, along the upper edges of each zipper.

Attach the button for the ring cylinder...see the pattern for the suggested position.

- 6** Now the inside is done, we're ready to make the outside layer, and complete the jewelry roll!

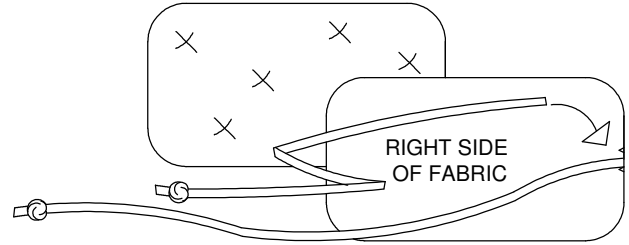

Prepare the ties:run your bias binding through a binding maker, pressing as you go. Measure off a piece of binding, about 40" or 1m long, for the ties.Fold your binding in half lengthways, and edgestitch the long edges together.

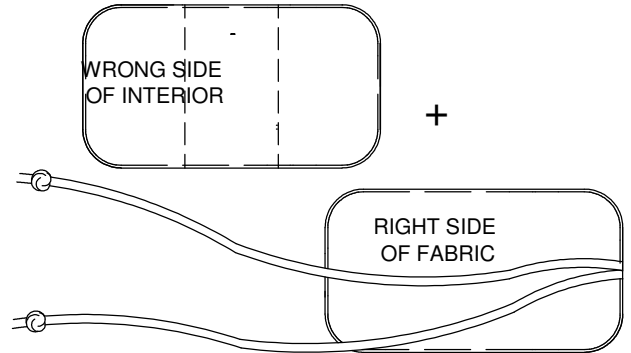

Press flat, then cut the strip in half. Tie a small, tight knot at one end of each of the strips if you wish.

- 7** Baste the batting to the wrong side of the outer piece.

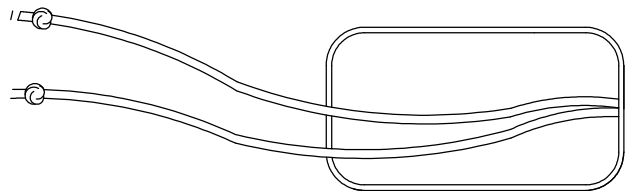

Baste the ties to the right side of the outer piece.

- 8** Wrong sides together, baste the inside pocket assembly to the outer piece, all along the edges.

- 9** Making very sure that the ties are safely out of the way(!!!) and sewing though all thicknesses, bind the edges of the jewelry roll. Press the bound edges flat.

- 10** Now, fill up your jewelry roll with your favorite goodies, fold it closed and tie it tight...done!
