How to work with the pattern:
Print in 100% scale on any laser printer. Print the first page. There is a check box at the page to check the correct size. If the dimensions fit, then print the remaining sheets of the pattern in the 100% scale. The pattern attachment contains sheets, which are marked with points (letters), to correctly align the edges, always align the same points (corners).

Pattern is made in all sizes together without seam allowances.

Before you cut the fabric don´t forgot to check your measurement with the pattern.

I made a step by step tutorial and you can find it here:
