

# BABY MITTENS

## SEWING INSTRUCTIONS

1. Cut four pieces of each pattern piece. Put two pieces of each pattern together. You should have two pairs of outer layer fabrics and two pairs of inner layer fabrics.

2. Sew each pair of fabric together, right side facing, starting from the point marked with a ● to the ● nearer the top.

3. Attach a 9cm-long elastic band across each pair of fabrics.

4. Continue sewing each pair of outer layer fabrics together, from the ● near the top to the bottom of the other corner. For the inner layer fabrics, leave a gap of 3.5cm for turning the pieces inside out later.

5. Turn the inner fabric pieces inside out. Place each pair inside a pair of outer fabrics. Sew the inner and outer fabrics together along the bottom edge of the fabrics in a circle.

6. Pull the inner fabric out, then turn the outer fabric right side out through the gap (mentioned in Step 4).

7. Close out the gap using slip stitch.

8. Tuck the inner piece inside the outer piece and you're done!

1/4" seam allowance included.

## MATERIALS NEEDED

30 x 25 cm fabric for the outer layer

30 x 25 cm fabric for the inner layer

36 cm 6mm-wide elastic band

## SUGGESTED FABRICS

Cotton jersey, interlock knits, or flannel
